

## Description

These bar manifolds are designed to connect valves having interface conforming to ISO 4401-03-04

Valves can be assembled parallel to each other with minimum space.

These manifold connects all 'P' ports of the interface to a common passage which is sized to provide minimum pressure drop.

The maximum number of interfaces available on manifold bar are 10.

## Unit Dimensions

Dimensions in mm.

## Hydraulic Symbol

Material : Carbon Steel (Max. Working pressure - 315 bar)
